ELECTRONIC SECURITY COMMAND
SAN ANTONIO, TEXAS 78243

REPLY TO
ATTN OF: IG

31 March 1981

SUBJECT: Intelligence Oversight Quarterly Report

TO: NSACSS/IG

1. Mission activities of the Electronic Security Command (ESC) were legally and properly conducted. No oversight violations/incidents were reported.
2. Actions Taken: During this quarter we conducted Management Effectiveness Inspections of the 6993 ESS/CSOC, Kelly AFB, Texas; 6950 ESG, RAF Chicksands, England; and the 6913 ESS, Augsburg, Germany. Efforts have been taken during this period to obtain sufficient copies of the Air Force video cassette entitled "The President's Intelligence Oversight Program" for all ESC units. This film will be shown to newcomers at ESC units during their unit indoctrination process. The cassette can also be used during recurring training as a refresher.
3. Future Actions: We are currently scheduled to inspect three ESC units during the next 90 days.
